About EPS Oxford

Established in 2006, we provide high quality technical production to events across the UK. We have grown to cover all aspects of event production, including lighting, sound, staging, AV and power distribution. We can provide rental equipment, sales, installation, servicing, production management and consultancy. We are company who pride ourselves on personal development and progression. We offer many opportunities to grow skill sets with official training and qualifications to match.

General Description

The Junior Technician will support events and jobs that EPS are contracted to do. You'll be based primarily based on site working with our team of technicians. When not attending jobs, you'll be tasked with supporting the Warehouse team ensuring smooth operation of the business. Due to the nature of the role, you will be required to work evening and weekends.

Often this position requires you to work alone and be self-sufficient. However, when in a team, you must be happy to take direction from more senior employees.

Main Job Tasks and Responsibilities

- Be customer facing and a representative of our company
- Prepare equipment for hire
- Support the team whilst attending jobs
- Support jobs on-site and from the Warehouse
- Follow Company Policies
- Be confident in lone working
- Any other such duties as the employer may require from time to time
